Strong. Reliable. Versatile.

Simpson's strong, versatile epoxy adhesives for concrete and brick are ideal for anchoring threaded rod, rebar and smooth dowels in an assortment of base materials. Their acrylic formulations deliver consistent performance for high-strength anchor grouting in a wide range of weather conditions — curing fast even in water-saturated concrete. Simpson Strong-Tie offers a wide variety of adhesive anchoring products to meet virtually any need.

- > SPEEDS UP CONSTRUCTION
- > IDEAL FOR SUBGRADE STABILIZATION, PAVEMENTS, AND WORKING PLATFORMS
- > MAXIMUM CONFINEMENT OF GRANULAR FILLING
- > IMPROVES COMPACTION AND RESTRICTS MOVEMENT OVER TIME
